## ABOUT ME

---

Senior Software Engineer with 6+ years of experience in full-stack development using Angular, React, Vue.js, and Node.js. Specialized in building scalable SPAs, RESTful APIs, and microservices.

Experienced with AWS (Lambda, DynamoDB, EC2, S3), Docker, and CI/CD pipelines (Jenkins, GitHub Actions). Currently contributing to BBC digital transformation projects via Accenture (MegaDev), based in Latvia.

## WORK EXPERIENCE

---

🏢 **Accenture** – Riga, Latvia

### Senior Software Engineer

[ 01/01/2026 – Current ]

- Engaged through MeGaDev OÜ to deliver software engineering services for BBC digital transformation initiatives, contributing as part of the Accenture delivery team.
- Designing and developing scalable full-stack applications using Node.js, TypeScript, React.js, Angular, and Vue.js.
- Architecting and maintaining secure RESTful APIs, microservices, and backend services for enterprise-scale digital platforms.
- Implementing cloud-native solutions using AWS Lambda, DynamoDB, EC2, S3, and related AWS services.
- Building reusable frontend components and improving user experience, performance, accessibility, and maintainability across digital products.
- Managing containerized deployments with Docker and supporting CI/CD pipelines using Jenkins and GitHub Actions.
- Contributing to code reviews, technical discussions, debugging, and production issue resolution to maintain high-quality delivery standards.
- Participating in Agile Scrum ceremonies including sprint planning, daily stand-ups, backlog refinement, sprint reviews, and retrospectives.
- Collaborating with cross-functional teams including developers, QA engineers, product owners, and delivery managers in a distributed international environment.
- Ensuring clean architecture, performance optimization, secure coding practices, and high engineering standards across large-scale delivery work.
- 

🏢 **Arvensys Technologies** – Australia

### Senior Software Engineer

[ 01/05/2023 – 31/12/2025 ]

- Engaged through Maximize Solution to deliver software engineering services for Arvensys Technologies, Australia, supporting remote enterprise application development.
- Developed scalable web applications using Angular, JavaScript, Bootstrap, and RESTful APIs, with a focus on performance, maintainability, and clean UI architecture.
- Built reusable UI components, improved frontend structure, and optimized application workflows for business users.
- Integrated JSON Web APIs, backend services, and Azure-related cloud workflows to support reliable data exchange and system functionality.

- Collaborated with remote client-side teams on sprint planning, technical discussions, debugging, and production issue resolution.
- Delivered software solutions in a cross-border remote setup, aligned with Australian client requirements and enterprise delivery standards.

## **Automated Business Solutions - ABS – Lahore, Pakistan**

### **Software Engineer**

[ 01/01/2020 – 30/04/2023 ]

- Re-architected and maintained ERP modules using Angular, Bootstrap, and PrimeNG, improving frontend performance, scalability, and maintainability.
- Delivered business web applications and ERP solutions for MENA and Dubai-based clients, focusing on clean UI, reusable components, and reliable user workflows.
- Migrated legacy modules from Struts/.NET-based systems to a modern Angular frontend stack.
- Optimized frontend architecture, improved API integration efficiency, and enhanced overall application responsiveness.
- Implemented role-based dashboards, enterprise UI standards, and reusable components for business users.
- Developed fintech and identity verification platforms using Vue.js, Laravel, and REST APIs.
- Contributed to secure KYC/AML workflows, identity verification modules, and crypto trading platform features with real-time processing.
- Integrated backend services, improved API communication, and built responsive UI architectures for web applications.
- Resolved production issues, improved system reliability, and supported performance optimization across critical modules.
- Worked in Agile teams to deliver secure, scalable, and compliance-focused software solutions.

## **EDUCATION AND TRAINING**

### **Master of Science (MS) in Computer Systems**

**ISMA – Information Systems Management University** [ 02/2025 – Current ]

City: Riga | Country: Latvia | Website: <https://isma.lv/en/> | Level in EQF: EQF level 7

### **Bachelor of Science (BS) in Computer Science**

**PMAS Arid Agriculture University** [ 09/2014 – 07/2018 ]

City: Rawalpindi | Country: Pakistan | Website: <https://www.uaar.edu.pk/index.php> | Level in EQF: EQF level 6

## **LANGUAGE SKILLS**

**Mother tongue(s):** Urdu

**Other language(s):**

**English**

**LISTENING C1 READING C1 WRITING C1**

**SPOKEN PRODUCTION C1 SPOKEN INTERACTION C1**

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*

## **SKILLS**

TypeScript / Programming and Web Development / Angular, HTML5, CSS3, JavaScript, TypeScript / HTML5 / JavaScript / Ajax Framework / web programming / Angular / JavaScript Framework / RESTful APIS / SASS(SCSS) / software UI design patterns / BOOTSTRAP 3/4/5 / CSS3 / JSON / Bootstrap / Git / Postman / RESTful api / Github / Web API / HTML / CSS / API Integrations / Git, Git Hub, SVN / Atlassian (Bitbucket, Confluence, Jira) / Bug tracking Systems : Jira / Git, Bitbucket, Gradle, CI, Jenkins, JIRA, Docker / Project Management Software (Jira, Trello, Workfront, Sharepoint, etc.) / Node.js, NPM / Angular / CLI / Agile development / Methodologies: Waterfall Agile
